The Center for Health and Wellness, Inc. (CHW) is a state-of-the-art nonprofit primary health care facility designed to meet the needs of the low to moderate income residents in northeast Wichita. The purpose of the Center is to provide a first-class, affordable family health care facility to improve access to primary health care services and focus on prevention and wellness for this traditionally under-served population.

*"Affordable, accessible health care surely is among the most critical social issues we must address. I see the Center for Health and Wellness as a dream in the making. Perhaps the most gratifying aspect of this dream is that it is firmly grounded in reality. We are carefully making our plans, using every resource at our disposal, and working diligently to create something of lasting value. Good health is a treasured possession; its attainment and maintenance are not only the responsibility of the individual but of society as a whole. We must join together to support this Clinic, for the betterment of us all."*
